24-Hour Worldwide Medical Information and Assistance

The staff at DAN Boater’s Emergency Assistance Center provide 24/7/365 assistance and consultation to DAN Boater Members who require medical and travel information and assistance.

For non-emergency medical inquiries, Members may access information through the DANBoater.org website or by contacting our medical information specialists through DAN Boater’s Medical Information Line at +1-919-490-2011.

DAN Boater Medical Emergency Hotline

For medical emergencies while on a Trip more than 50 miles / 80 kilometers from your principal residence, the DAN Boater medical staff will consult with those at the location of the emergency and will assist in determining the best course of action for the Member given the situation. With your permission, and when possible and appropriate, our staff will attempt to reach your primary care physician. DAN Boater medics will then organize a response to the medical emergency, doing whatever is deemed medically appropriate, including but not limited to recommending or securing the availability of services of a local physician, arranging hospital confinement, and in some cases, Emergency Medical Transportation.

Some things to know before you call the Hotline:

- If the situation is life-threatening or you need immediate rescue, contact local emergency services (911 or other EMS) before contacting the DAN Boater Emergency Hotline +1-919-667-9111.
- When you call DAN Boater, the medic handling your call may make an immediate recommendation or may call you back after making arrangements at an appropriate medical facility. Either way, your call will be immediately tended.
- If the DAN Boater medic must call you back, you will be asked to wait by the phone. The return call may take 30 minutes or longer, as several calls may be necessary to facilitate your assistance
- If your situation is not an emergency requiring an immediate answer or assistance, please call the Medical Information Line at +1-919-490-2011.

With extensive coverage of the latest traveler safety and health issues, the free DAN Boater Travel Health & Safety Guides are an essential online resource for prevention, identification, and treatment of injuries and conditions related to boating and travel.

Medical Transportation Assistance

DAN Boater Membership includes up to $150,000 of medical transportation assistance. This service is available for all medical emergencies when a Member is on a Trip. This is not insurance and the Member must call DAN Boater to arrange medical transportation assistance.

Medical Transportation Assistance includes:

- Emergency Medical Evacuation
- Repatriation for Follow-up Care
- Repatriation for Hospitalization
- Return of Traveling Companion
- Return of Dependent Children
- Visit of Family Member or Friend
- Repatriation of Mortal Remains
Emergency Medical Evacuation

If a DAN Boater Member encounters a medical emergency during the course of a Trip and such condition requires emergency medical transportation (as determined by DAN Boater in consultation with the Member, medical personnel, and others at the site of the emergency), Emergency Medical Evacuation will be arranged and provided by DAN Boater.

Emergency Medical Evacuation means that due to Medical Necessity the Member requires immediate transportation from the place where such person encounters the medical emergency to the nearest appropriate medical facility where necessary medical care and treatment can be obtained.

Medical Necessity includes situations where local medical services are unavailable or judged to be inadequate to meet the needs of the injured person and it is determined to be medically appropriate to move the injured person to another medical facility for medical care or treatment.

Emergency Medical Evacuation does not include efforts to locate an injured person whose location is unknown or efforts to rescue such person from a dangerous situation or a location inaccessible by emergency services personnel. Medical transportation assistance may begin only after the injured person is made available at a location which can be reached by emergency medical services personnel.

For the purposes of this benefit, Transportation means any land, water or air conveyance required to transport the injured person during a medical emergency. DAN Boater will arrange Emergency Medical Evacuation using the means best suited to do so based on the seriousness of the injured person’s condition. This may include use of watercraft, aircraft (including an air ambulance, helicopters, or other commercial or military aircraft), surface vehicles (including an ambulance, car, truck or bus) railroads, or any other appropriate means depending on the circumstances. All decisions as to the means of transportation and final destination will be based solely upon medical factors.

Use of special transportation must be recommended by the attending Physician in consultation with DAN Boater. Special transportation includes, but is not limited to, an air ambulance, charter flight, land ambulance, private motor vehicle, or other extraordinary means of transportation. Expenses for medical supplies and services provided during Transportation must be recommended by the attending Physician and approved by DAN Boater.

The Emergency Medical Evacuation benefit includes any Transportation, medical treatment, medical services, or medical supplies that: (1) are necessarily incurred in connection with the Emergency Medical Evacuation; and, (2) meets generally accepted standards of medical practice; and (3) is either ordered by a Physician and performed under his or her care or supervision or order, or is required by the standard regulations of the conveyance transporting the injured person. All transportation arrangements must be by the most direct and economical conveyance and arranged by DAN Boater. This benefit does not cover expenses that are eligible for reimbursement under any other Medical Expense Insurance plan.

This benefit does not provide Emergency Medical Evacuation to transport the Member to their residence if there are closer medical facilities which are capable of attending to the injured person’s medical condition. See the Medical Repatriation sections for more details about when the Member may be transported to their residence.
Repatriation for Follow-up Care

If a DAN Boater Member, following initial treatment for a medical condition encountered during the course of a Trip, requires follow-up care or rehabilitation services, medical transportation assistance will be arranged and provided by DAN Boater to transport the Member by commercial air or ground transportation to either:

- The Member’s residence; or
- A different medical facility for further care, treatment or evaluation.

Any Repatriation shall be undertaken at the discretion of DAN Boater in consultation with the Member’s treating Physician, provided the Member is deemed medically fit to travel by commercial air or ground transportation.

Repatriation for Hospitalization

If a DAN Boater Member encounters a medical emergency during the course of a Trip and such condition is expected to require inpatient hospitalization for more than three consecutive days following initial treatment, DAN Boater will provide, up to the benefit limit of $25,000, a medical transportation benefit to transport the Member to the Hospital of the Member’s choosing located within the Member’s Home Country. All medical transportation must be arranged by DAN Boater.

DAN Boater, in consultation with the treating Physician, reserves the right to determine, in their sole discretion:

1. Whether a Member’s condition is sufficiently serious to require Medical Repatriation; and,
2. Whether a Member’s condition is sufficiently stable to allow Medical Repatriation without exposing the Member to an exasperation of their condition; and,
3. The mode of Transportation.

The Member shall be entitled to use the Repatriation for Hospitalization benefit once during any twelve 12 month period.

Return of Traveling Companion

If a DAN Boater Member’s traveling companion loses previously made travel arrangements due to a delay caused by the Member’s medical emergency, DAN Boater will arrange and provide for one-way economy airfare to return the companion to his or her original departure point. This benefit is limited to return airfare for one traveling companion.

Return of Dependent Children

If a DAN Boater Member is traveling alone with his or her children and is unable to attend to the children’s needs due to the Member's medical emergency, DAN Boater will arrange and provide for one-way economy airfare to return the children to their place of residence. If necessary, a qualified escort will also be provided.
Visit of Family Member or Friend

If a DAN Boater Member is traveling alone and is expected to require hospitalization for more than seven consecutive days, DAN Boater will arrange and provide for economy round-trip airfare for a visitor chosen by the Member (or his or her family) to travel to the site of hospitalization and return the visitor to his or her point of departure at the end of the Member’s hospital stay.

Return of Vehicle

If a DAN Boater Member is hospitalized or encounters a medical emergency which prevents the return of the Member’s vehicle to the rental agency or his or her principal residence, DAN Boater will arrange for the return of the unattended vehicle to the rental agency or the Member’s current residence.

Repatriation of Remains

If a DAN Boater Member dies while on a Trip, DAN Boater will arrange and provide for the return of the Member’s remains, including required embalming, necessary government authorizations, coffin(s) or cremation (only if required prior to the repatriation of the Member’s remains), and a container appropriate for transportation of the remains, to the Member’s principal residence.

Search and Rescue Expense Reimbursement

Subject to the following terms and conditions, DAN Boater will pay on behalf of a Member on a Trip, a total benefit of up to $25,000 per Membership in any 12 month period, for the following:

- For necessary and reasonable search and rescue (SAR) expenses incurred within 72 hours from the time of the first call for assistance.
- The SAR effort must be necessary to prevent further injury or illness or danger to human life as a result of an unforeseeable emergency.
- The SAR must be recommended by the appropriate rescue authorities, including Coast Guard, local Police, or other National or International services responsible for safety at sea.

Reimbursement shall be limited to expenses incurred by organizations which are specially trained and approved to undertake SAR operations. No benefits are payable for expenses for which a Member is not required to pay or for charges assessed only because this benefit exists.

In addition to the other exclusions and limitations listed elsewhere in this handbook, SAR expenses are not payable for:

- Circumstances which could have reasonably been anticipated at the time the Trip began (e.g. forecast of adverse weather conditions
- Emergencies caused by inadequate provision or training or competence needed to handle a planned Trip
